#### Be Above Suspicion.

It is a gratifying feeling among many that their lives are above suspicion. Yet how many good people on account of circumstantial surroundings have had the finger of unjust suspicion directed toward them. Carbuncles, unyielding sores, pimples on the face, rough skin having an eruptive appearance, etc., are in the eyes of so many regarded suspiciously as indicating the presence of some contagious blood disease, and pointed questions asked that are productive of considerable annoyance. These skin blemishes and eruptive tendencies of course find their origin in the blood, but not necessarily the result of contagion. The blood may have become impure on account of colds and exposure, improper food, weak digestion, urinary disorders, etc. However, it is well to remove the unnatural condition of the blood and the flesh by a prompt use of Dr. John Bull's Sarsaparilla. It regulates affairs internally and externally, beautifies the skin and restores impaired organic functions to their normal strength and activity.

A neighbor, Mr. Perry, had suffered with chills for more than a year, and had taken Quinine until his hearing was greatly injured. Seeing the cure wrought in my wife's case, he procured a bottle of pills and was speedily restored to perfect health. I feel that this is due to you. Very truly, Rev. J. D. Davis.
